

All Proceeds Benefit The Mary Wade Historic Boardman Renovation Project

The Lucy Boardman Residential Care Home (RCH) represents the heart and history of the Mary Wade Campus. Constructed in 1866, the RCH is home to 45 residents. While the structure is sound, there are numerous upgrades and improvements that need to be addressed to improve the overall quality of life experienced by our residents.

The expansion will enable us to increase the number of rooms from 45 to 50, each with their own full private bathroom. The renovation will also allow us to upgrade our HVAC system, replacing the heating system and adding air conditioning to the building. Additionally, an inoperable existing elevator will be replaced, wireless connectivity significantly improved, and sprinkler systems will be upgraded throughout the building bringing the RCH into code compliance.
